# Babies Want to Talk

## It's Their Human Nature

Babies are born with the innate ability to distinguish sounds from all languages. Research shows that babies and toddlers learn multiple languages easily, making birth to 36 months old the ideal time to begin their bilingual journey. GrapeSEED Baby is for parents and caregivers who want their little ones to learn English and their home language simultaneously in a fun, engaging way.

### GrapeSEED Baby Makes It Fun to Become Bilingual

GrapeSEED Baby is a series of enthralling bilingual books with matching English audio narration for children from birth to 36 months. Created by early childhood language experts and eminent artists, GrapeSEED Baby kindles joyous bonding time between parents or caregivers and their babies as together they cuddle up to explore, read, and listen to the entertaining, yet purposeful, content.

GrapeSEED Baby is the ideal first step for little ones to learn English as they learn their home language. It builds on the international success of the LittleSEED and GrapeSEED English programs that have changed the lives of tens of thousands of children 3-12 years old.

# GrapeSEED Baby's Dual Language Approach

Using language-learning research, GrapeSEED Baby is designed as a series of very simple stories to introduce language to babies. Each book has English printed alongside the home language for easy comparison and better comprehension by the readers. Readers can read the book aloud in either language. Or, using the captivating English audio with their babies, the adult can follow along, turn the pages, and point to the pictures that match the audio.

# Easy and Convenient

GrapeSEED Baby is perfect for use anywhere that a picture book can be read, a board book can be explored, or the English narration can be played—at home, in daycare centers, and other baby places. A simple usage guide helps parents and caregivers achieve the most delightful reading experience with their child as they build the child's language skills in both languages simultaneously.

## English Audio Narration

To create a more flexible and fulfilling reading experience, each book comes with 2-3 narration options: simple, expressive, and entertaining. The English narration can be streamed online or downloaded through the GrapeSEED Baby app.

# Designed for **More** than **Just Fun**

GrapeSEED Baby comes in sets of twelve books: six picture books and six board books. Each picture book is paired with a board book, with each of the pairs featuring the same theme. Each pair then introduces the most baby-appropriate words and topics in both English and the home language, supporting the dual language learning approach. Babies respond best to repetition and sensory stimulation, so using paired books with common themes reinforces what babies are learning while keeping them engaged.

**Board Books** can be used like toys and have sturdy cardboard paper with rounded corners.

**Each book...**

- Fits into tiny hands, cannot be easily torn, and is safe to use.
- Provides bright, simple pictures with few words.
- Matches the words with the pictures.

**Picture Books** have delightful pictures and activities to keep children engaged.

**Each book...**

- Features detailed illustrations of children and their families.
- Provides more examples and context of words used in the Board Books.
- Includes fun activities to use with the book.

# A Joyful Experience for Adult and Child

GrapeSEED Baby is a thrilling adventure for babies, parents, and caregivers alike. Babies will enjoy the experience because it's fun and engaging, and readers will witness their children's faces light up with joy as they learn their home language and English at the same time.
